

Resolution of the Board of Directors, Greater Houston Partnership

Referred by the Infrastructure and Resiliency Advisory Committee, October 10, 2019

In Support of a Houston Ship Channel Expansion Project to Widen the Entire Galveston Bay Reach and Provide Additional Channel-Deepening and Safety Improvements

The Greater Houston Partnership supports a federal government, Port of Houston and private industry collaboration to authorize, fund and implement a Houston Ship Channel expansion project to widen the entire Galveston Bay Reach and provide additional channel-deepening and safety improvements.

The Greater Houston Partnership supports this significant investment in widening and deepening the Houston Ship Channel to provide safe and efficient transit for each vessel traversing the busiest deep-draft international trade waterway in the nation.
